

Education and Development Opportunities for Nurses New to General Practice

The Kent and Medway Training Hubs invite General Practice Nurses (GPNs) to apply for the Kent & Medway New To Practice Programme (NTPP). The NTPP aims to support Nurses new to General Practice to feel confident in the modern Primary Care world.

The NTPP modules have been designed to reflect the changing and complex nature of healthcare today, with themes relevant to nursing in Primary Care, as well as clinical sessions delivered by the Training Hub and Invicta Learning.

In addition, nurses can choose to apply for an optional full GPN Fellowship (Postgraduate training equivalent to 40 credits at Level 7 - MSc).

There will be up to 12 Fellowships available for GPNs ready to commit to a 2-year programme. Successful applicants will gain the opportunity to develop their clinical skills and leadership potential as well as develop personally, professionally and academically to benefit clinical practice.

To qualify for these exciting opportunities, applicants must meet the following criteria*:

- **Newly-qualified or within their first year in General Practice**
- **Hold/about to hold a substantive contract with a Kent or Medway General Practice/PCN.**

*Open to all who meet the above criteria, regardless of number of hours worked; salary funding will be available through the Training Hubs to support programme attendance.

Candidates need to contact their local Training Hub team to register their interest:

- **eastkent.traininghub@nhs.net**
- **northkent.traininghub@nhs.net**
- **kmccg.wkenttraininghub@nhs.net**

Please note a schedule of tailored sessions will be released shortly and where possible these will take place on a Tuesday morning. Sessions will be a mix of face-to-face and virtual.
